The News Media AND THE LAW

INDEX TO VOLUME 23 (1999)

Using This Index

Each Winter, *The News Media and The Law* publishes an index of the previous year's magazines. This index includes all cases, statutes and legislation discussed in articles in volume 23, including references to those cases in volumes 1 through 22.

A comprehensive index to all 23 years of *The News Media and The Law* is available to subscribers by contacting the Reporters Committee at (703) 807-2100. In addition, electronic copies of the cumulative index are available from the Reporters Committee's web site: (http://www.rcfp.org).

This index is divided into two sections. The first is an alphabetical index. The second is a topical index.

The alphabetical index has four subdivisions: cases, statutes, legislation and miscellaneous materials. Most entries include citations to official compilations of legal materials. Where possible we have provided the most complete citation, updating those that originally appeared in the magazine to reflect subsequent court or legislative action.

In many instances the magazine has mentioned cases and legislation that were not reported officially. For these entries we provide as much information as was available to assist in tracking down the documents.

Each entry is followed by one or more references to *The News Media and The Law*. References in **bold type** indicate that the magazine contained a story about the case. References in normal type indicate that the case was mentioned in a story about some other subject. This usually occurs when a court has decided a case based on a precedent set in an earlier decision.

The second section of the index, organized by topic, begins with a list of categories and subcategories. Within a subcategory, entries are organized alphabetically. Cases are listed first, statutes and rules next, legislation third, and miscellaneous materials last.

As an example, if you are looking for cases dealing with compelled disclosure of information in a civil case, you would look first in the topical index under Confidentiality, Confidential Information —Civil Cases. Using case names found there, you would look in the alphabetical index to find citations to *The News Media and The Law* and official legal reporters.

This index does not list every story that has appeared in the magazine. Stories dealing solely with news events, rather than legal cases, have not been catalogued.

We have attempted to make the entries as complete and accurate as possible, subject to human error. We encourage readers to call to our attention mistakes or omissions they discover.
